

Environmental Policy

AFIA International Egypt- Savola Egypt is a pioneer in refining, processing, packing, distribution, and marketing of edible oils in Egypt.

Currently, AFIA is managing a very complex business portfolio to strengthen its hold of the Egyptian market becoming the leading edible fats company in Egypt.

AFIA is therefore committed to minimizing the environmental impact from all our operations and to achieve this we will:

- Ensure compliance with all applicable environmental laws and other related regulation.
- Maintain, monitor, report, review, audit and continually improve AFIA Environmental Management System, consistent with the requirements of ISO 14001, as well as other relevant environmental and sustainability standards.
- Strive for continuous environmental performance improvement through the setting of meaningful environmental objectives and targets.
- Identify, report, investigate and resolve all environmental incidents and non-conformances and take action to prevent recurrence.
- Regularly report to senior management our environmental performance and issues, including any Violation and regulatory non-conformance.
- Consult with stakeholders on environmental issues.
- Encourage the use of natural resources, apply waste, energy, and water minimization through monitoring and cost saving projects.
- Take necessary action to prevent land, air, and water pollution through reduced use of chemicals, resource conservation, waste reduction, and proper waste disposal in every area of activity in compliance with environment regulation.
- Train employees on environmental and related issues; and encourage their participation and cooperation to minimize adverse impact on and protect the environment.
- Work with business partners and other stakeholders to ensure they are environmentally responsible.
- Communicate, make available and promote this Environmental Policy with the aim of ensuring that all employees, business partners and other stakeholders are aware of the environmental impacts of AFIA'S activities as well as their individual obligations.
- Share and regularly report on our environmental objectives and performance with our employees and other interested parties.
- Periodically review this Environmental Policy to ensure it remains relevant and applicable to our business.
